CHAIRMAN'S REVIEW

For the six months ended June 30, 2008

The Company performed satisfactorily for the six month period ended June 30, 2008. We were pleased with the results of all major lines of business. Loss experience was more favourable during this period as compared to the corresponding period in 2007. Net earnings for the half year were \$11,915,259 versus \$11,921,529 for 2007. Earnings per share were \$0.30 for both periods.

The hurricane season still has a couple of months remaining, however, the Company has a conservative reinsurance programme in place with a panel of strong reinsurers and thus windstorms will not have a large impact on the earnings of the Company.

We are pleased with the development of the life and health insurance operations which over time will improve the balance between these lines of business and the Company's general insurance.
