## 2014 REPORT OF THE INDEPENDENT APPOINTED ACTUARY

### To the Shareholders and Policyholders of Guardian Life of the Caribbean Limited

We have reviewed the valuation of the liabilities for long term insurance policies of Guardian Life of the Caribbean Limited for the balance sheet at 31 December 2014 in accordance with generally accepted actuarial practice, including the selection of appropriate assumptions and methods.

The valuation of long term insurance reserves for traditional life and annuity business was carried out primarily using a Zillmerised net premium valuation approach. This is a traditional approach, similar to those used for statutory reserve calculations in the United States and United Kingdom. For investment linked and deposit administration contracts, the reserves were based on fund balances at the valuation date. In accordance with IFRS 4, a liability adequacy test was conducted to ensure the adequacy of reserves given best estimates of future experience.

We have reviewed and relied on the work of the Company's Valuation Actuary in order to issue this certificate.

In our opinion, the amount of long term insurance contract liabilities makes appropriate provision for future obligations in respect of the Company's long term business and the financial statements fairly represent the results of the valuation.

### **To the Shareholder of Bank of Montreal (Barbados) Limited**

We have audited the accompanying financial statements of **Bank of Montreal (Barbados) Limited (the “Company”)**, which comprise the balance sheet as at October 31, 2014, the statement of income and comprehensive income, statement of changes in shareholder's equity, and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as at October 31, 2014, its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.
