2. Basis of Preparation

NOTES TO THE ABRIDGED NON-CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**2. Basis of Preparation (continued)**

Effective 1st January 2023, the Company will implement IFRS 17, 'Insurance Contracts'. The 2022 non-consolidated financial statements are therefore the last to be reported under the existing IFRS 4 regime. The new standard materially changes the recognition and measurement of insurance contracts and the corresponding presentation and disclosure in the non-consolidated financial statements.

These abridged non-consolidated financial statements are prepared solely for statutory purposes and do not reflect the consolidation of the accounts of subsidiary companies.

The abridged non-consolidated financial statements have been prepared on a going concern basis.

The Company's audited non-consolidated financial statements are available for any user on the Company's website or can be accessed at the Company's office during normal business hours.

3. Functional and Presentation Currency

Items included in the Company's abridged non-consolidated financial statements are measured using the currency of the primary economic environment in which the entity operates (the 'functional' currency). The abridged non-consolidated financial statements are presented in Trinidad and Tobago dollars, rounded to the nearest thousand, which is the Company's functional and presentation currency.

4. Contingent liabilities**Legal proceedings**

The Company is a defendant in various legal actions. In the opinion of the Directors, after taking appropriate legal advice, the outcome of such actions will not give rise to any significant loss.

Taxation

There is a possible obligation that may arise for the interest and penalties relating to the tax on future distributions. The existence of this obligation will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Property Taxes

Legislation for Trinidad and Tobago is enacted however not yet enforced. Rates for the calculation of the tax are available, however, the information on values ascribed or the approach to such is still unknown. As a result of these factors, the Company is unable to reliably estimate the liability.
