NOTICE is hereby given pursuant to Section 31 of the Trustee Act, Cap. 250 to all persons having any debts, claims or demands upon or affecting the Estate of ELMAN LEO PARRIS also known as LEO ELMAN PARRIS deceased late of #80 Tulip Drive, Husbands in the parish of Saint James in this Island, who died in Barbados on the 4th day of February, 2023 to send particulars of their claims duly attested to the undersigned in care of the SOLICITOR GENERAL'S CHAMBERS, Spencer Building, Webster Business Park, Wildey, St. Michael not later than the 26th day of July, 2024 after which date the Public Trustee will distribute the assets of the Estate among the persons entitled thereto having regard only to the debts and claims of which the Public Trustee shall then have had notice.

And all persons indebted to the Estate are requested to settle their indebtedness without delay.

Dated this 26th day of May, 2024.

DONNA K. BRATHWAITE, SC
for Public Trustee.

GOVERNMENT NOTICE

(second publication)

Publication of the List of Pollutants with their Prohibited Concentration Levels by the Minister of Environment and National Beautification, Green and Blue Economy under Section 4(5) of the Marine Pollution Control Act Cap 392A for Public Comment

The Minister of Environment and National Beautification, Green and Blue Economy, in accordance with the Section 4 (5) of the Marine Pollution Control Act CAP 392A, is seeking public comment on the draft list of pollutants with their prohibited concentration levels.

The Marine Pollution Control Act, CAP 392A is intended to protect the marine environment from any source of pollution which may negatively impact human health and the environment. The Act seeks to control the discharge waste, both on land and in the marine environment, that may impact the groundwater and the marine environment. The types of activities that would be regulated by the Act and therefore would have to comply with the standards include the discharge of waste either inland or to the marine environment of effluent from wastewater treatment system and industrial waste.

The list of pollutants with their prohibited concentration levels is a list of physical, chemical, and biological parameters which may be contained in discharges to the environment and provides environmental standards that can be confidently applied. It provides:

i. Ambient Water Quality Standards

Ambient standards are the levels that should not be exceeded in the general marine environment.

ii. End of Pipe Discharge Standards

End of pipe standards recognize that marine environment can assimilate point sources of higher concentrations than appropriate for ambient levels because of immediate dilution and dispersion on discharge.

Further information on the Marine Pollution Control Act CAP 392A and the List of Prohibited Concentration may be found on the Environmental Protection Department's website using the link <http://epd.gov.bb/>.

Objections on the standard proposed for inclusion in the list of pollutants with its prohibited concentration level should be submitted via email to epd.secretray@epd.gov.bb or via mail and should be addressed to:

Director
Environmental Protection Department
L. V. Harcourt Lewis Building
Dalkeith
St. Michael

The title of the email or mail should be "Objections to the List of Pollutants with their Prohibited Concentration Levels" and should be submitted before **16:00, June 14, 2024**.

Publication of the List of Pollutants with their Prohibited Concentration Levels by the Minister of Environment and National Beautification, Green and Blue Economy under Section 4(5) of the Marine Pollution Control Act Cap 392A for Public Comment – *Cont'd*

Domestic Waste End of Pipe Standard

Parameter	Rationale	End of Pipe Standard
Faecal streptococci/Enterococci	Public health indicator of sewage pollution in seawater. This is generally the preferred indicator of health risk.	Single-sample maximum concentration ≤ 70 enterococci CFU/100 ml.
